

RENOVATOR & CUSTOM BUILDER COUNCIL

It's All About Insulation from the Ground Up - Insights into Best Practice Solutions

In every project small or large you will encounter the need for insulation and this session will help you keep up with changes and newer approaches. What are the top 3 things you need to be aware of when you are insulating a wall?

There are dozens of unique scenarios and site conditions which makes your approach to insulating a challenge. We will discuss the different approaches of using fiber, rigid and spray foam insulation products. Take this opportunity to hear from product manufacturers and professional installers and learn about their best practices, approaches and products for insulating a wall.

Our panelists will get into detail with their best practices for the following four situations:

- Double Brick Wall
- Brick Veneer Wall with 4" Stud Wall
- Attic Room with a Cavity
- Foundations / Insulated Concrete Forms

You will have an opportunity to ask these professionals questions and learn their suggested approaches.
