

EDUCATIONAL FORUM at Home Fest

Designer Kitchens Can be Sustainable Too!

Join us for a special educational session at our live kitchen at the Home Fest! Glen Peloso will guide us through the latest kitchen design trends and instructor Heather Ferris will detail

how water filtration, instant hot water and disposers aid in the design of a sustainable kitchen. After the program, you can tour the new HomeFest for more design inspiration and hands on learning!

Topics included:

- Water Conservation: why it's important
- Water Filtration: why we should filter & different types that are available along with pros & cons for each
- Instant Hot water: how it aids in water conservation
- Food Waste Disposers: how do we manage waste now & how food waste disposers can help

To learn more about The Home Fest, please visit www.thehomefest.ca.

This program can be used for CEU/IDC/AIA credit for designers and architects.
