

ENERGY STAR® 2017 Standard

With Instructor **Andy Oding** of 

Don't miss the [energy efficiency fundamentals](#) course for high performance home builders

Date: Wednesday, Oct. 24, 2018

Location: BILD Offices
20 Upjohn Rd, Toronto

Time: 8:30 AM-4:30 PM

\$259 + HST HBA member

\$309 + HST non-member

Group rates available.

Registration: www.enerquality.ca/training

Industry expert Andy Oding dives into the changes and requirements of the standard for Canada's most successful green building program. Discover why thousands use the ENERGY STAR training series to build better homes, gain a reputation as exceptional builders, increase customer satisfaction, and prevent post-construction call-backs and other deficiencies.

What you will learn:

- How ENERGY STAR, EnerGuide and SB-12 fit together
- Technical requirements of the ENERGY STAR 2017 standard
- Strategies for airtightness and thermal envelope assemblies
- The return on investment of ENERGY STAR and how to build cost-effectively
- Strategies to reduce call backs, improve building performance & achieve great energy savings
- Overcoming technical challenges and exploring opportunities for implementing new technologies

Past participants say training

- "helped me feel more confident in my knowledge"
- "taught me what mistakes not to make"
- "provided good advice about the market and what's coming"

Who should attend: New ENERGY STAR participants • Builders • Contractors • Architects • Project Managers • Developers • Manufacturers and distributors of high performance building products • Realtors • Consultants • Technologists • All those responsible for marketing high performance homes

This workshop satisfies OAA and OBOA and other Continuing Education Credits
